

Registration Fee : 200/-

Registration charges include conference Kit, certificate of Participation/Presentation, High Tea and Lunch.

Paper Abstract must be reached on or before 25th January 2018 to the

Email: humkinetic2018@gmail.com

Important Dates:

Last Date for submission of Paper-

25th January 2018

Intimation of Acceptance

30th January 2018

About SITAMS

Sreenivasa Institute of Technology and Management Studies (SITAMS) was established in 1998 by Late Dr.D.K.Audikesavulu, Former Chairman of Tirumala Tirupati Devasthanams and Ex. MP, Lok Sabha, a Mechanical Engineer by profession and also a prominent industrialist possessing industrial establishments in the states of Karnataka, Tamilnadu, Andhra Pradesh and Madhya Pradesh. The institution is an Autonomous Institution, awarded 'A' Grade by Andhra Pradesh Higher Education and NAAC accredited Institution. The college offers 5 Undergraduate and 6 Postgraduate courses in Engineering.

One day National Level Symposium

KINETIC-2018

Move to prove the talent.....

10th February 2018

In Association with

IEEE Product Safety Engineering Society

Organized
by

Department
of
SCIENCE AND HUMANITIES
SITAMS

About Department

Knowledge in basic science is an essential ingredient in any professional course. Department of science and humanities is devoted to foster the fundamental principles of science that is capable to enhance individual experience. Science and Humanities comprises Mathematics, Physics, Chemistry, Environmental Science, Economics, Commerce, and English are handled by individual faculty who are highly qualified and professionally competent in their respective fields.

Departmental Activities

In addition to imparting the quality education to the engineering students, the department faculty actively engage themselves in conducting various activities to make the students and faculty in gaining additional knowledge. As a part of it, every year the department conducts National Science day, Mathematical Day, Out Reach Science Programmes, workshops and Seminars, etc.,.

About Symposium

The Objective of the symposium is to deliver the fundamental concepts related to recent developments of Science and Humanities in emerging studies which aim to promote and share the research methods adopted by the researchers and students in their different facets of study.

Topics for presentation

English

Importance of English Grammar in Speaking and Writing

Mathematics

Applications of Transformations, Vector Analysis, Complex analysis in Engineering and Technology

Chemistry

Organic, Inorganic, Green Chemistry Water Treatment Methods in Engineering and Technology

Physics

Applications of LASERs, Optical Fibers, Superconductors, Ultrasonics in Engineering and Technology

Guest of Honour

Mr. N.Venkat Ramana

Scientist-D,

Combat Vehicle Research and Development Establishment (CVRDE), Defence Research and Development Organization (DRDO) Ministry of Defence (MOD), Avadi, Chennai-54
